

## **Wage Rates Instructions**

General: The latest federal wage rate determinations as published by the U.S. Department of Labor are available by downloading Federal Wage Rates page 1, Federal Wage Rates page 2 and Federal Wage Rates page 3. Delay the downloading of the federal wage rates until final printing is near, as any new federal rates must be added by addendum if published more than 10 days before the bid opening date.

State wage rates must be requested from Department of Workforce Development for all projects. Application should be made a minimum of 60 days before the bid opening. The award of contract must be made within 180 days of issuance of the determination, so it is prudent not to apply too early. Department of Workforce Development's list of Debarred Contractors should be included with the State Wage Rates.

### **Procedure:**

1. For federally funded projects. Include all three pages of the Federal Wage Rates for the appropriate county for your project. Federal Wage Rates page 1 pick the county the project is located in. Federal Wage Rates page 2 and Federal Wage Rates page 3 click the link "All counties Federal page 2 and 3. Page one through three can be found at Federal Wage Rates pages 1-3.
2. For state funded projects. Request state wage rates determination from the Bureau as noted above.
3. Bind white sheets into Segment IV of Proposal.
